

HAPPY MOTHER'S DAY TO OUR REAL MOTHERS! WE LOVE & APPRECIATE YOU! GOD BLESS YOU!

"So, but now, a good woman is a jewel in a man's crown. She should be honored. She...My mother's a woman, my wife is, and they're lovely. And I've got thousands of Christian sisters who I highly respect. But if—if they can respect what God made them, a motherhood and a real queen, that's all right. She's one of the best things that God could give a man, was a wife. Besides salvation, a wife is the best thing if she is a good wife. But if she isn't, Solomon said, "A good woman is a jewel in a man's crown, but a—an ornery one or no-good one is water in his blood." And that's right, it's the worst thing could happen. So a good woman...If you've got a good wife, brother, you ought to respect her with the highest. That's right, you should do that. A real woman! And, children, if you've got a real mother that stays home and tries to take care of you, keeping your clothes clean, sends you to school, teaching you about Jesus, you should honor that sweet old mother with all that's in you. You should respect that woman, yes, sir, because she's a real mother"

GOD BLESS YOU!

"I love Him. I know that's one thing that I really do. I love the Lord with all my heart. I... There's just something within me that's part of my life. I don't know what—what the future holds, but I know Who holds the future, that's the main thing. I—I know that He holds all the future, and whatever mine shall be; it's in His hands. So each day I want to live, not for myself. If I live for myself, I live a selfish life. I want to live for others, and give what strength I have, not to myself, and to my own pleasure, but for the benefit of others, that'll build the Kingdom of God."

Testimony

- Sister Destiny Romero -

Hey everyone as many of you know I had a seizure on Easter Morning, about 10 minutes after getting ready for church. When I woke up from it I had no clue why there was cops and firemen in my room and in my face. When the EMTs got there, they took me down stairs and laid me in a bed and took me to the hospital. When I got there, I had no clue I was going to the hospital. I remember seeing my dad's headlights following the ambulance. When we got to the hospital they put me in this room and I saw my Aunt Lorena and my dad walked in and they were just staring at me. I still had no clue of what was really going on and why I was there. Once I was put into my own room, my mom told me everything that had happen. They wanted to do a test on me, but the machine was down. I remember being told by God through my uncle Caleb that everything was going to be ok, and my family and I believed that. On Monday they wanted to put me on medicine even though they did not understand why I had it. My mom did not want then to put me on the medicine until they had a real reason. But the whole time we were standing on God's promise. Once they moved us to the children's hospital in El Paso, they did a test by putting a bunch of stickers on my head to check my brain waves. The results came in the next day and everything was normal. I just wanted to thank everyone who prayed for me and my family who is helping me fight through it. Because there is always that little demon that comes and says that you're not healed, but I am.
